

# Flow chart for the person with cold-like symptoms

If you have cold-like symptoms such as fever, cough, tiredness, loss of taste or smell >>Do not attend University

According to the instructions by lab manager, supervisor or on your own judgement

## See a doctor

If you live in Kyoto prefecture, first consult with your family doctor. If you don't have a family doctor or after hours, call Kyoto Novel Coronavirus Medical Consultation Center(075-414-5487)

Diagnosed as  
NOT COVID-19

Tested Positive  
for COVID-19

Unconfirmed  
COVID-19

Basically see a doctor

>>Report your health condition to your lab manager everyday

Return to Campus after recovery ※1

Receive medical treatment or take a rest at home under the **instructions by public health center**. After full recovery, report the details of guidance & instructions given by your family doctor or public health center to your faculty

Stay home for **8days** after onset of symptoms plus **3days without symptoms**

※1 : In the case of flu or other diseases, you must follow the instructions of the doctor.

※2 : In the case of a faculty member, it should be done by industrial physician instead of school doctor.

In the case of an administration staff, it should be done by senior member instead of lab manager or supervisor.

Submit your health observation report

Lab manager issues a notification of 'termination of self-isolation at home' and submits it with the health observation report to school doctor ※2

Judgement of the termination of self-isolation at home by school doctor※2

Return to Campus
