

Flow chart for the person with typical symptoms of COVID-19

If you have typical symptoms of COVID-19, such as fever, cough, tiredness, loss of taste or smell >>Do not attend University

According to the instructions by lab manager, supervisor or on your own judgement

See a doctor

In Kyoto Prefecture, first consult with your family doctor.
If you do not have a family doctor, call the Kyoto Novel Coronavirus Medical Consultation Center (075-414-5487)

Diagnosed as NOT COVID-19

Return to Campus after recovery ※1

Tested Positive for COVID-19

Report to your lab or office immediately. Receive medical treatment or take a rest at home under the instructions by the public health center.

Unconfirmed COVID-19

Stay home for 8days after onset of symptoms plus 3days without symptoms

Basically see a doctor

>>Report your health condition to your lab manager everyday

Submit your health observation report

Lab manager/Supervisor judges and directs the termination of home isolation based on your health observation report.

If necessary in making the judgement, lab manager/supervisor contacts the Novel Coronavirus Protection Headquarters, Uji Campus to request advice from Kyoto University Health Service.

Return to Campus

※1 : In the case of flu or other diseases, you must follow the instructions of the doctor.
